Heifer Handling & Selection:

These heifers are the best siblings of the steers that sold in the Buckingham Cattlemen's Association Feeder Calf sale this past fall. In October, Pelvic measurements and Reproductive Tract Scores tests were taken by Dr. Andy Meadows and Dr. Lesley Davis. All the heifers tested negative for BVD-PI. These females meet the Virginia Premium Assured Plus Standards.

Breeding Program:

Heifers were Synchronized and bred AI in early December. All AI pregnancies are listed on the Sire Reference Page. All heifers were ultra-sounded pregnant and fetal sexed by Dr. Andy Meadows in Feb/March. *All heifers sell guaranteed bred on sale day.

Health & Consignor Guarantee:

Heifers are fully vaccinated and dewormed for optimal health and reproductive efficiency. Any heifer that shows heat within 30 days after the sale and is found open by an accredited Veterinarian with written documentation, the consignor will refund 100% of the heifer's purchase price and take possession of the heifer, or the consignor will replace the heifer with another bred heifer per buyer's choice. If any heifer shows heat within 45 days after the sale and is found open by an accredited Veterinarian with written documentation, the consignor will refund 25% of the heifer's purchase price provided that written notice is sent to the sale committee no later than 60 days after the sale. *No Consignor is obligated to guarantee any issue after 60 days post sale.
